An example of how the ROI is distributed

- Let's say YOU choose to invest the minimum amount of \$500
- Assume the ROI from traders of 5% in the calendar month = \$25.00 ROI for that month
- 50% of ROI comes back to you = \$12.50
- 50% of ROI is paid through Uni-level program = \$12.50
- **This \$12.50 is distributed through 10 levels = \$1.25USD per level**

NB: This example is based on 5% ROI from traders for calendar month. No guarantees of ROI are provided

\$5,000 - \$9,999 Invested with eCash-Invest

- 50% of ROI \$250 - \$4,999USD invested goes to investor and other 50% to Uni-level
- 80% of ROI on portion \$5,000-\$9,999USD goes to investor & other 20% to Uni-level

**Create a Secure,
Enjoyable Lifestyle For
You and Your Family!**

Example: Assume you invested \$8,000USD

If ROI was 5% you would receive the following earnings paid to you:

\$250 - \$4,999USD portion x 5% ROI from traders = \$250

50% of this ROI is paid to investor = \$125 (other 50% is paid to Uni-level)

\$5,000 - \$9,999USD portion x 5% ROI on \$3,000 from traders = \$150

80% of this ROI is paid to investor = \$120 (other 20% is paid to Uni-level)

Total amount paid to investor = \$245 (* assuming ROI from traders of 5% in calendar month)

\$10,000+USD Invested with eCash-Invest

- 50% of ROI \$250 - \$4,999USD invested goes to investor and other 50% to Uni-level
- 80% of ROI on portion \$5,000-\$9,999USD goes to investor & other 20% to Uni-level
- 95% of ROI on portion above \$10,000USD goes to investor & other 5% to Uni-level

You and Your Family!**

Example: Assume you invested \$100,000USD

If ROI was 5% you would receive the following earnings paid to you:

\$250 - \$4,999USD portion x 5% ROI from traders = \$250

50% of this ROI is paid to investor = \$125 (other 50% is paid to Uni-level)

\$5,000 - \$9,999USD portion x 5% ROI from traders = \$250

80% of this ROI is paid to investor = \$200 (other 20% is paid to Uni-level)

\$10,000 - \$100,000USD portion x 5% ROI from traders = \$4,5000

95% of this ROI is paid to investor = \$4,275 (other 5% is paid to Uni-level)

Total amount paid to investor = \$4,600 (* assuming ROI from traders of 5% in calendar month)

NB: No guarantees of ROI or income are given by Clubfreedom or eCash-Invest

The greater the amounts invested the greater the income

Assume a ROI of 5% from traders

Amount Invested	Amount paid to investor	Amount distributed 10 levels	Amount paid per level
\$250	\$6.25	\$6.25	\$0.63
\$1000	\$25	\$25	\$2.50
\$10,000	\$325	\$175	\$17.50
\$100,000	\$4,600	\$500	\$50

NB: This example is based on 5% ROI from traders for calendar month. No guarantees of ROI are provided
